

**Smart Charge
America**

Setting a Charging Rate for your SCA40 (powered by Xeal) EV Chargers

Smart Charge America has partnered with Xeal to deliver a white glove approach to helping our clients determine the best charging rate for their property, so that you don't have to do the guesswork! Xeal's team rEViews local utility rates, nearby comps and other factors to determine the best rate to make recommendations to your team.

Pricing Options and Customizations Available with SCA40 EV Chargers

<p>Pricing per Kilowatt Hour</p> <p>(recommended where local law allows)</p>	<p>SCA recommends a minimum of \$0.30/kWh for optimal ROI</p>
<p>Pricing per Hour</p> <p>(only recommended where local laws prohibit kWh rates)</p>	<p>SCA recommends a minimum of \$2/hour for optimal ROI</p>
<p>Pricing based on Access Type</p> <p>(public, private, and assigned)</p>	<p>Multiple rate options based on driver type</p>
<p>Daily and overnight rates</p> <p>(ex. 8am-5pm and 5pm-8am)</p>	<p>Multiple rate options to accommodate for peak utility rates and times</p>

Ask your Smart Charge America representative to put you in contact with a member of our team at Xeal, for a free Charging Rate Analysis.
